MISSISSIPPI HIGHWAY DEATH TOLL

THIS YEAR LOWER THAN LAST

Public Safety Commissioner T. B. Birdsong announced this week that the toll of death on Mississippi's highways is 189 lives less than during the corresponding period of 1960.

Commissioner Birdsong made the following statement in regard to traffic safety and the record for 1961: "At the beginning of the year we set a goal of saving 100 lives on the highways. We achieved this goal as of October 15 and hope to exceed it by a considerable percentage before the end of the year."

"Through greater emphasis on traffic safety, more stringent enforcement policies, excellent public cooperation, and constant help from the news media, we have reached the goal ahead of schedule. This is an opportune time to extend our appreciation to the many groups which have made this goal a reality."

When asked about the Patrol's part in the record setting feat, Chief of Patrol Dave Gayden commented, "Every Mississippi Highway Patrolman in the state is due a large debt of gratitude for the many hours of devoted hard work he has expended to make this record possible. Our

MARCH OF DIMES LEADERS — Your Dimes Will Do It Again will be the slogan for the January 1962 March of Dimes Campaign, it was announced by Dr. A. L. Gray, Jackson, State Health Officer and State Chairman. Dr. Gray and Owen Cooper, Yazoo City industrialist, who have for several years organized Mississippi's volunteers in the annual successful March of Dimes campaign have again accepted responsibility as State Chairman and Associate State Chairman, according to Basil O'Connor, President of The National Foundation.

Dr. Gray said that county and state leaders will meet October 27 at the Heidelberg Hotel in Jackson to plan for the January fund appeal. County campaign directors from each county are invited to the all-day work shop which will feature a luncheon address by Dr. Robert E. Merrill, Associate Director of the March of Dimes supported Research Study Center, Vanderbilt University, Nashville, Tennessee.

The morning sessions conducted by Ed Fike, New York City, National Foundation Regional Director, will review accomplishments and outline objectives of the March of Dimes. The afternoon program will include fund raising workshops for the volunteer.

"March of Dimes volunteers have helped to conquer the problems of polio", Dr. Gray said. "Your Dimes will do it again for birth defects and arthritis".

MANY MAY LOSE SOCIAL SECURITY BENEFITS IF NOT APPLIED FOR SOON

Thousands of dollars in social security benefits may be lost to a number of retired workers or their survivors if they do not apply for their payments before the end of this month, Jerome H. Drane, District Manager, Social Security Administration, said today.

Under the law, social security payments may be retroactive for up to 12 months, Mr. Drane explained. Therefore, for those persons who became eligible for payments in October of last year, when most of the 1960 amendments went into effect, each month of delay in applying for their benefits will now mean a month's benefit lost.

These groups were made newly eligible for benefits beginning with the month of October 1960.

1. Those persons made eligible for benefits under the 1960 provision which reduced the amount of work needed to qualify for payments (now even further reduced under this year's amendments).

2. Survivors of workers who died between March 31, 1938, and January 1, 1940. (These benefits had been payable only to survivors of workers who died in 1940 or later).

3. Aged dependent widowers of women workers who died before September 1950, when this type

of benefit was not payable.

Workers who have been totally disabled for a year and a half or more, and their dependents, may lose some back payments if they do not apply for their social security benefits before the end of November.

With the 1961 amendments to the social security law crowding the changes of late last year from the public eye, Mr. Drane said, many people affected by the 1960 amendments have apparently not yet learned of their eligibility for payments.

Also, there are many aged workers who have not applied for benefits because they feel they are now earning above the maximum to be eligible for payments, Mr. Drane added. They may be wrong, he said, especially since new changes in the law have been made. In fact, they may be eligible for payments for some months of 1961, if not for the entire year.

Moreover, he pointed out, even if they are not eligible for payments now, by applying now, they can receive their benefits as soon as they do become eligible.

PUBLIC HEARING ON ROADS NOVEMBER 3RD IN JACKSON

Results of a two-year engineering study of Mississippi's road and street needs will be disclosed at a public hearing Friday, November 3, at 10 a.m., in the House Chamber of the New Capitol, according to J. Alton Phillips of Macon, chairman of the Highway Study Committee appointed by the 1960 Legislature.

The study combines a detailed analysis of roads and street needs, with a companion study on the financial requirements of meeting these needs. The needs study was done by the Automotive Safety Foundation of Washington, D. C., while the financial study was carried out by the University of Mississippi Department of Research in Business and Public Administration. The study was authorized by the Legislature in 1960.

According to Phillips, the full membership of the legislative committee and other members of the legislature are scheduled to attend the meeting. Also being invited are members of the State Highway Commission, boards of

supervisors of the 82 counties and mayors and aldermen of Mississippi municipalities.

"Increasing needs for more roads and better streets have been apparent for several years," Phillips said. "These studies by the Automotive Safety Foundation and the University of Mississippi should form a sound approach for meeting these needs."

Phillips described present Mississippi highway problems as a "two-way squeeze." On the one hand, he said automobiles have more than doubled since World War II, industry, diversified farming and tourist traffic have mushroomed; while on the other hand the state's secondary road needs have never been provided for, and older sections of the primary system are deteriorating.

"These older roads were never built for today's traffic volume and heavy loads," he said. The cost of maintenance has become prohibitive, and only a "major overhaul" on many sections will keep Mississippi from falling behind other states in highway development.

Phillips urged that Mississippians interested in better highways attend the hearing on November 3.

Civil Defense Organization...

As was stated in earlier Articles, the basis of any effective Civil Defense organization must be firmly founded on existing government, properly organized and adequately augmented. The municipal, county, state and federal governments must organize to perform those basic operation which would be incidental to an emergency, natural, or man-made, such as providing for:

- (1) Food and Shelter;
- (2) Medical and Health;
- (3) The continuation or restoration of essential public services.

Government must also anticipate and incorporate in its Civil Defense planning the following:

- (1) Successors for officials of the Executive, Legislature and Judicial Branches of Government;
- (2) The safe keeping of essential

record;

- (3) The performance of those normal governmental functions which must be continued during an Emergency;
- (4) The development and training of active volunteer and auxiliary personnel, which would augment normal civil government.

All federal agencies have been assigned civil emergency responsibilities by the President of the United States. On October 4, Governor Ross Barnett issued a Civil Defense Executive Order providing for certain firm assignment of emergency responsibilities to all agencies of the Mississippi Government. This Executive Order set forth specific emergency duties and responsibilities for each of the department heads of our State Government. The Commission of Public Safety, as an example,

Scarlet Apples Ribbon Salad

Streamers of scarlet Washington Delicious apples festoon a snowy mound of tangy salad. Caught in a molded gelatin-whipped cream base are contrasting tastes: sweet and tart, cool and spicy, smooth and crisp, plus surprise bits of pineapple and Washington Golden Delicious apples. Of Smorgasbord heritage—this dramatic salad is perfect for holiday buffets.

Smorgasbord Apple Salad

4 1/4 tbsps. unflavored gelatin	2 large Washington Golden Delicious apples
1 1/2 envelopes	1 1/2 cups drained pineapple tidbits
6 tbsps. cold water	2 tbsps. sugar
2 eggs, slightly beaten	1 1/2 cups pineapple syrup
1 1/2 tbsps. prepared mustard	1 large Washington Red Delicious apple
1 tbsps. vinegar	

Soften gelatin in cold water. Combine eggs, sugar, and one cup of pineapple syrup; cook over boiling water, stirring constantly, until thick enough to coat metal spoon. Remove from heat; blend in softened gelatin. Combine mixture, stirring well, stir into gelatin mixture; chill until slightly thickened. Core and dice golden apples; combine with pineapple tidbits and fold into gelatin mixture. Fold in whipped cream. Core and thinly slice red apple; arrange slices in pattern in a 5-cup mold. Carefully fill mold with gelatin mixture; chill until firm. Turn out on platter and garnish with sprigs of parsley or watercress. Serves 6-8.

pie, has the prime responsibility for the following:

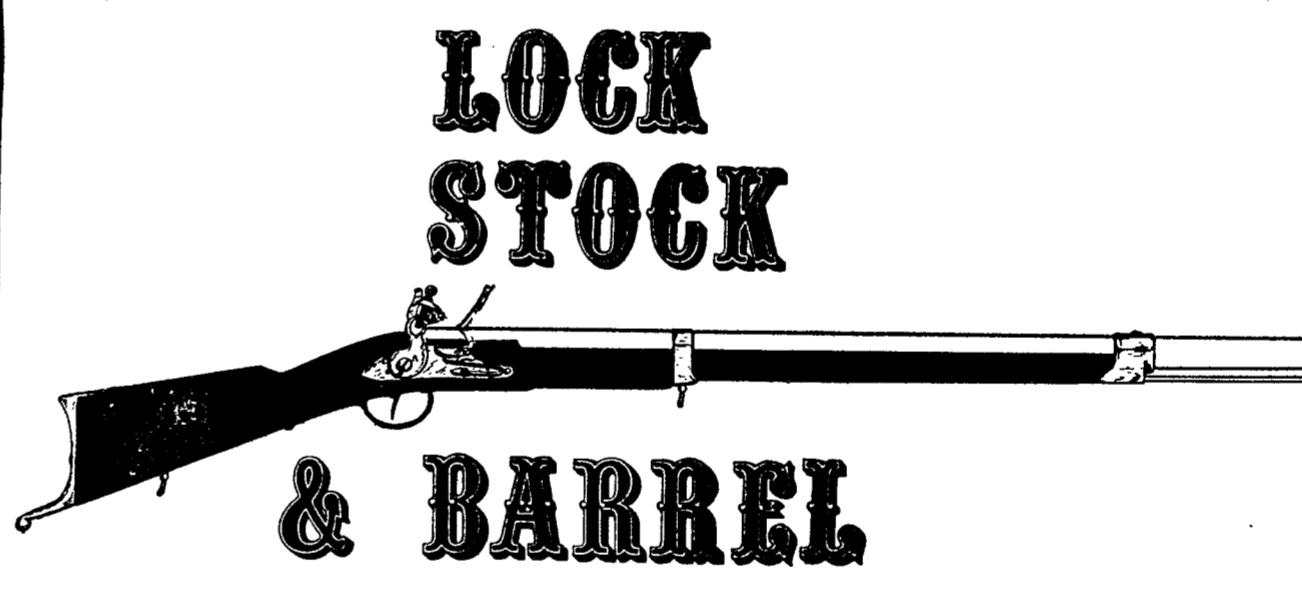

Early warning dissemination, auxiliary police and emergency communications. The executive officers of the Health Department is responsible for guidance and leadership in the mobilization and utilization of all medical and paramedical resources of the State. He also implements training and plans for Civil Defense Emergency Hospitals and medical stockpiles located in Mississippi. The Mississippi Employment Security Commission has the primary responsibility for the emergency utilization of all manpower within our State. Similarly, the Board of Public Welfare has been designated as agency responsible

for mass care and feeding; shelter and clothing.

Pursuant to the Executive Order, each of the approximately 18,000 people employed by the State of Mississippi will be assigned emergency functions to provide for the continuity of our Government and the survival of our people in the event of an attack on this country. This timely action by our Government provides for an emergency staff of key people with firm emergency assignments in each of the counties.

Coast Electric Power Association belongs to the people it serves . . . lock, stock and barrel.

Electric Power Associations, which are Mississippi Corporations, were formed by Mississippi people to obtain electric power for themselves throughout the areas in which they live.

By working and investing together, these Mississippians borrowed money from "REA", a special government bank formed for this purpose. They are repaying that loan with interest.

Each time an Electric Power Association member pays his electric bill, he is paying for:

1. Interest and principal on the association's debt
2. Wholesale cost of electricity
3. Building and maintaining poles and lines
4. Taxes
5. General association overhead.

Each time a member pays his bill, he is helping to pay for the business which he and his neighbors bought when they joined or helped to form the association.

An Electric Power Association does not belong to and is not controlled by "REA". Its policies and practices are determined by a board of directors, selected from among the members or people it serves.

"Spartacus" Opening At Legion Theatre In Gulfport Today

The epic motion picture "Spartacus," winner of four Academy Awards, has been booked for an exclusive engagement at the Legion Theatre, Gulfport, opening on Thursday, October 26th. It was jointly announced today by Universal-International, distributor of the film, and Ed Orte, manager of the Legion Theatre.

"Spartacus" had its world premiere on Broadway last fall and is currently playing there. The film has been widely acclaimed for its unique blending of a tender, intimate love story set in a framework of eye-filling spectacle.

The Technicolor production stars Kirk Douglas, Laurence Olivier, Jean Simmons, Charles Laughton, Peter Ustinov, John Gavin and Tony Curtis.

Based on the best-selling novel by Howard Fast, "Spartacus" is set against a background of Imperial Rome in the last century before Christian era. Described by Times Magazine as "A new kind of movies with spiritual vitality and moral force," it depicts the story of man's eternal desire for freedom. Its love story, told in moving and individual terms, is interwoven with scenes of titanic struggle between Roman might and a rebel army of slaves under the leadership of the gladiator Spartacus.

Directed by Stanley Kubrick, the Pnyra Production is one of the costliest movies ever made and was filmed almost entirely in the United States. To recreate in Hollywood the splendor of ancient Rome, many shiploads of household furnishings, period props, 27 tons of statuary, more than 5000 uniforms and seven tons of custom-made armor were transported from Italy's leading museums across an ocean and a continent.

Juniors marching in the national Guard parade were Sue Ann and Karen Buehler, Patsy Elliott, Jeanie Rutherford, Linda Luxich, Mildred Baum, Judy Carver, Jody Curet, Karen Frosser, Sharon Monti, Sheila Ann Favre, Marylou Gavagni and Nikki Romanoff and Mrs. John Rutherford.

The meeting opened with the Pledge of Allegiance and the Star Spangled Banner.

Co-chairmen Mrs. Ervin Nekaise and Mrs. John Rutherford greeted the group met last Thursday at the Legion Home with Miss Sue Ann Buehler presiding.
